

Temporary Surface Protection
Hygienic • Chemically Resistant • Fire Rated

SPEC SHEET

PBX-CR has a core of 100% recycled water-resistant paper materials combined with highly durable and chemically resistant surface coatings of recycled high and low-density polyethylene (HDPE / LDPE).
Excellent alternative to hardboard and corrugated plastic sheet products.
Can be sanitized and mopped.

FEATURES

Fire Rated	100% Recyclable
Tru-Lay Flat Sheets	Non-Abrasive
Non-Staining	Patented
Crush Proof	Made in USA

SIZES

4'x6' (48in x 72in) and 4'x8' (48in x 96in)

APPLICATIONS

Construction	Data Centers
Health Care	High Value Projects

INSTRUCTIONS

Clean surface well before installation. Align PRX-CR edge to edge. Tape along seams. Cut to fit with utility knife. DO NOT use on curing floors. DO NOT tape directly to floor. If running machinery stagger sheets like brickwork. To clean use damp mop.

PRODUCT SPECIFICATIONS

Thickness	137 mil
Square Footage	24/32
Fire Rated	Yes
Material	100% recycled laminated paperboard HDPE/LDPE surface
Weight/Sheet	12lbs/16lbs
Size	4'x6' & 4'x8'
Density (lbs / 1000 sq. ft)	500
Density (Kg/M3 cubic meter)	702
Ph	Neutral
Color	White
Inks/Dyes	No
Country of Origin	USA
LEED Compliant	Yes
Recyclable	100%
Vapor Permeable	No
Water Proof	Yes
